

HERO VIEW | AN OPEN COLLABORATION LIVING ROOM IN THE HERITAGE PARK

OVERALL PLANNING STRUCTURE

FROM TRANSPORT BARRIER TO OPEN INNOVATION NETWORK

- 01 ENGINEERING AUTONOMY**
Jingzhang answered its time through independent survey, design and construction.
- 02 PUBLIC CORRIDOR**
The heritage park turns a closed line into north-south continuity and east-west reconnection.
- 03 OPEN INTERFACES**
RE:STACK connects research, industry, commerce, public service and daily life.
- 04 COLLABORATIVE NETWORK**
Three areas and two wings provide complementary access to the full chain.

FOUR-STEP OPEN INNOVATION LOOP

THREE AREAS, TWO WINGS AND EXTERNAL RESOURCES

Zhongzhiyuan strengthens R&D and validation, AI Origin strengthens translation and growth, and Dazhongsi strengthens launch and feedback. The two wings connect capital, IP, specialist services and urban applications.

01 SHARED SYSTEM DNA

- Modular platform base
- Fixed AI core and manual takeover
- Power, network and device spine
- Replaceable scene plug-ins
- Reversible, demountable lightweight structure

02 FOUR LEVELS OF ACCESS DEPTH

- S | Trackside and community node
- M | Shared collaboration and public programs
- L | Co-development and lightweight validation
- XL | City-scale innovation venue

One system DNA, scaled and reprogrammed for place, users and operating cycles.
